

**Parish Assistant - Christ Church, Chiswick**  
**With specialism in digital comms, creative content, livestream and technical skills**

***For God, for each other and for the community***

Have you just graduated with a degree related to digital communication, production, marketing or web design and not yet decided on your plans for the next 12 months? Or have you gained these skills through an apprenticeship or work experience? Are you a committed follower of Jesus with a passion for community, mission and discipleship?

We have just the role for you.

Christ Church is a vibrant church in Chiswick, West London, with three sites across the neighbourhood. With a growing congregation (in person and online), there is a unique opportunity to join a busy staff team in a full or part-time role and experience the nuts and bolts of full-time Christian ministry up close and personal! With the recent departure of a team member (to full-time ministry) there is an immediate opening for someone to bring their newly acquired expertise in all things digital to kingdom building in Chiswick, London and beyond. You would also be expected to provide basic on the ground guidance/support to staff members and volunteers who need a helping hand with IT challenges.

This is a perfect opportunity to gain valuable work experience whilst committing to a year of Christian service. Although this role has a digital specialism, it will suit someone who is versatile, service-minded and ready to support the Nicola and Richard Moy, and their clergy and staff team across a range of challenges. For example, you might be part of the team working with children, youth or the elderly. You would certainly be an essential support in the set up and running of events and activities and expected to 'lend a hand' wherever required. In addition, there would be the opportunity to lead prayers and bible studies at staff meetings.

You would be expected to attend services on Sunday and become an integrated member of our church community. We have an active young adults' group which we are sure you will love and will make sure you are mentored and nourished spiritually throughout your 12 months. We are offering a 12 month fixed contract and a full-time equivalent salary of £21,450. You will have the opportunity to arrange affordable accommodation with a member of the church family and the experience of joining a welcoming, loving and inspiring Christian community.

If this sounds like something for you, please get in touch as soon as possible using the email addresses below. We would love to discuss the role further and learn about you and your journey to faith.

Please note you must have the right to work in the UK.
